Bee-Bot
Programming

Benefits

It favors the development of spatiality and lateralities.
It helps to know and respect a set of rules.
Promotes concentration.

CHALLENGE OBJECTIVE

The students will face a different route in each round, in which they must accumulate points by traveling the path to discover, reforesting as many trees as possible.

During each round, each student will have 1 minute to schedule and run the schedule.

If at the end of this time (1 minute per student), the Beebot or Kinder Bot robot has not reached its destination, it will wait until the end of the route is observed. To take the robot path as valid, you must execute the programming in the stipulated time.

PLATFORM

The tournament will take place via zoom and in order to enter the Bee-Bot simulator, it will be through the Platform:
